Profile

Developer interested in web, front-end/back-end development, mobile dev and systems administration.

Experience

Front-end Developer, crowdSPRING; May 2012 ~ now

Working with user conversion, user interface improvement, doing the whole suite of selenium tests and a lot of backend tasks too.

Junior Back-end Developer, ZED Media; Jan 2012 ~ April 2012

Working mostly with Django, Python and scrappy.

Freelancer, Independent; Sep 2009 ~ now

Working with web development using Django, Twisted, jQuery, Facebook integration, HTML5, Javascript, xHTML and CSS. Use of Mercurial and Git in source code management. Deploy using a variety of servers, as nginx and apache.

Software Engineer, MapThatPad; May 2011 ~ November 2011

Working with Subversion, Django, jQuery, xHTML and CSS to create a better UX and backend features.

Google Summer of Code Student 2011, Sencha Labs - Google; May 2011 ~ Aug 2011

Created Line and Scatter Charts to Javascript Infovis Toolkit and wrote documentation.

Developer, Smart Nuts; Remote Work - Oct 2010 ~ Jan 2011

Working with Django, xHTML, CSS and jQuery. Use of Subversion in source code management.

Google Code-In Mentor, Google; Sep 2010 ~ Jan 2011

Helped mentoring students to develop MoinMoin code and documentation.

Google Summer of Code Student 2010, MoinMoin - Google; May 2010 ~ Aug 2010

Integrated Jinja2 and wrote documentation to MoinMoin Wiki.

Developer, Soda Virtual; Oct 2009 ~ Apr 2010

Worked with web development using Django, xHTML, CSS and jQuery in front-end and mySql and Postgres in databases. Deploy using Apache2 and FastCGI and Subversion.

Education

IDez, João Pessoa, PB - Brazil - Post-Graduation in Mobile Development (2011 - 2013)

IFPB, João Pessoa, PB - Brazil – Technologist in Internet Systems, 2008-2010

Hobbies

In my free time I practice a lot of sports. I like to hangout with my friends and family. I have a project with Liberalism brazilian community which we're trying to teach to students.
